OVERVIEW

Redefining medicine for a healthier tomorrow.

Bioxyne Limited is an Australian life sciences company headquartered in Sydney, operating in Australia, Europe, the United Kingdom, and Japan. Bioxyne is the 100% owner of the Breathe Life Sciences Group (together "The Group"). Breathe Life Sciences ("BLS") is the Australian market leader in the manufacture of medicinal cannabis, MDMA, and Psilocybin products, supplying pharmaceutical and consumer products to Australian and international distributors, clinics, pharmacies, and customers.

Our mission is to revolutionise the way the world approaches healthcare. Our focus is on investigational & psychotropic medicines, healthcare technology, and novel consumer health products.

PRINCIPLE ACTIVITIES

In the first half of the 2025 financial year (“H1 FY25”), Bioxyne’s principal activities included: operating the Breathe Life Sciences medicinal cannabis manufacturing business; supplying pharmaceutical manufacturing and distribution services to Australia’s largest medicinal cannabis companies; distributing its own-brand Dr Watson® products to patients via authorised prescribers in Australia; wholesaling bulk raw materials including cannabis active pharmaceutical ingredients (“API”) in Australia, the UK, Europe, and Japan; supply of Lactobacillus Fermentum PCC® products to clients in the USA; and the importation of MDMA and Psilocybin API into Australia for manufacture and supply to authorised prescribers and clinical trials.

Breathe Life Sciences is licensed by the Therapeutic Goods Administration (“TGA”) to manufacture medicinal cannabis, MDMA, and Psilocybin products, certified compliant with EU GMP (European Good Manufacturing Practices) standards. Breathe Life Sciences holds licenses to import, export, wholesale, deal with and manufacture Schedule 3, 4,8, and 9 controlled substances. Outside of Australia, the business has manufacturing and distribution centres in Japan, the UK, and Czechia (Europe), operating wholesale supply of API and starting materials and direct to consumer supply of its trademarked Dr Watson® brand.

Bioxyne has a global distribution agreement with Denmark’s Chr Hansen to manufacture, market, supply and distribute its proprietary probiotic strain of Lactobacillus Fermentum PCC® for over-the-counter gut health immune supplement products, primarily supplying these products to consumers in the United States of America.

REVIEW OF OPERATIONS

Bioxyne’s vision is to become the “go to” manufacturer and wholesaler of novel medicines. The company has made significant strides in H1 FY2025 towards this, and during this time has refined its vision further: To build an Amazon-like hub for wholesale pharmaceutical services, providing end-to-end pharmaceutical infrastructure throughout the supply chain (from sourcing, manufacturing, controlled storage, distribution, import and export) in Australia, Europe, the UK, and

eventually (when regulations allow) Japan.

Operations Report

The Bioxyne board is pleased to report record sales revenue for the half year ended 31 December 2024 of **\$12,563,277** (H1 FY24: \$4,641,216), a **strong 171% increase** on the prior corresponding period of H1 FY2024.

The increase in sales revenue follows the award of a comprehensive GMP manufacturing license for medicinal cannabis products, which BLS has capitalised on and commercialised rapidly. BLS’s GMP license is Australia’s first GMP license to manufacture Psilocybin and MDMA products for patient use outside of clinical trials. An historic milestone for both the Company and Australia, and permits BLS to manufacture cannabis, MDMA (3,4-methylenedioxymethamphetamine) and psilocybin active pharmaceutical ingredients as well as final dose form products for supply to authorised prescribers and clinical trials.

Since gaining GMP certification in February 2024, Bioxyne rapidly developed and scaled manufacturing capabilities of final dose form products including cannabis flower, oral mucosal oils, inhalable delivery systems (vapes), medicated pastilles (gummies), psilocybin and MDMA capsules.

The Company has also expanded its pharmaceutical services business, which includes import, export, storage, and distribution of controlled drugs and medical products for its clients, increasing its secured warehousing and storage capacity by 200% in H1 FY2025.

In H1 FY2025 Bioxyne invested in more than doubling manufacturing capacity of medicated cannabis pastilles and is the clear market leader in this product with annualised output capacity of ~\$57m. This represents approximately 50% of the Company’s total current Australian manufacturing output capacity.

Bioxyne’s rapid growth in H1 FY2025 has been underpinned in wholesale of medicinal cannabis starting materials, Dr Watson® and Breathe Life Sciences (BLS) final dose form products. Sales growth by BLS has been underpinned by:

- Several major contracts for manufacture

of key products with a total of \$47.5m in contracted pipeline of purchase orders from key clients;

- Substantial demand growth in pastilles, being driven by consumers favouring the ease of use of pastilles, as opposed to flower and oils;
- Several of BLS's existing flower and oil customers being cross-sold pastille products, resulting in growth in the revenue generation of existing customer contracts;
- An expanding customer base in Australia and overseas in promising growth markets such as the UK and Europe, where BLS is already established and operational; and
- Further expansion of the Company's product range.

Since 2018, BLS has developed a significant

consumer database of nearly ~78,000 customers in the UK and Europe through its consumer health products (cannabidiol "CBD" is a novel food in the UK and EU markets, and as such is not a controlled drug) and lifestyle divisions, which include wholesale and direct to consumer sales of its Dr Watson® range.

In H1 FY2025 BLS lodged applications for the ARTG listing of its Dr Watson® medical cannabis range with the TGA for supply to the UK and European medical markets. The company expects significant growth from supply to the UK and German markets of both its wholesale pharmaceutical and manufacturing services and own-branded product lines.

BIOXYNE HALF YEAR RESULTS (000's)¹

CASH RECEIPTS & NET CASH USED IN OPERATING ACTIVITIES (\$000's)

(1) THE H1 FY24 profit result above is after a non-cash goodwill write off of \$11,568,010 in that period.

Bioxyne's PCC™ probiotics wholesale business improved over the prior half year with sales growing 27% YOY.

Summary financial results are as outlined below:

Profit & Loss (\$000's)	H1FY25	H1FY24
Revenue	12,563	4,703
COGS	(6,272)	(3,100)
Gross Profit	6,291	1,603
Gross Profit Margin	49%	34%
Other Income	3	246
Overheads	(2,522)	(2,636)
Impairment	(84)	(11,568)
EBITDA	3,688	(12,355)
Interest, Depreciation & Amortisation	(432)	(20)
Profit Before Tax	3,256	(12,375)

The Company achieved a record result for the half year of \$3,255,716 (H1 FY24: Loss \$12,375,348 or loss of \$807,338 before goodwill write off).

This result took into account final costs of \$44,393 (H1 FY24: \$219,971) incurred on withdrawing from our direct selling business in Malaysia and Indonesia.

Operating cash was a positive inflow for the half-year of \$2,957,363 (H1 FY24: Outflow \$2,211,184). The Company invested ~\$1.3 million, in H1 FY2025, in operating plant & equipment, security vaults and leasehold improvements to increase its manufacturing capacity. The increased capacity will drive further revenue growth in the second half of FY2025.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

The Company accelerated its manufacturing operations in Australia during the half year ended 31 December 2024, following the award of its comprehensive GMP licence in February 2024. There were no other significant changes in the state of affairs of the consolidated entity during the half-year.

EVENTS SUBSEQUENT TO BALANCE DATE

On 23 January 2025, the Company provided revenue guidance to the ASX for the FY30 June 2025 to be \$25 million.

The guidance was based on revenue achieved to date and from:

- Growing its manufacturing and pharmaceutical services business customer base;
- Growing market share for its Dr Watson® branded pharmaceutical products in Australia;
- Launching Dr Watson® and BLS branded medicinal cannabis products in the UK and European markets; and
- Signing long term contracts with market leading distributors of medicinal cannabis products.

No other matter or circumstance has arisen since 31 December 2024 that has significantly affected, or may significantly affect:

- The Company's operations in future financial periods; or
- The results of those operations in future financial periods; or
- The Company's state of affairs in future financial periods.

AUDITOR'S INDEPENDENCE DECLARATION

The auditor's independence declaration is included on page 11 of the half-year report.

NOTES TO THE FINANCIAL STATEMENTS

For the half-year ended 31 December 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

These general-purpose financial statements for the interim half-year reporting period ended 31 December 2024 have been prepared in accordance with the requirements of the Corporations Act 2001 and Australian Accounting Standard AASB 134 Interim Financial Reporting, as appropriate for for-profit entities. Compliance with Australian Accounting Standards 134 ensures that the financial statements and notes comply with International Financial Reporting Standards IAS 34 'Interim Financial Reporting'.

The financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

The interim financial report is intended to provide users with an update on the latest annual financial statements of Bioxyne Limited. As such, it does not contain the information that represents relatively insignificant changes occurring during the half-year. It is recommended that this financial report be read in conjunction with the annual report for the year ended 30 June 2024 together with any public announcements made during the half-year.

The accounting policies and methods of computation have been consistently followed in this interim financial report as were applied in the previous annual financial statements.

(b) Critical accounting estimates and judgements

There have been no significant changes to the critical accounting estimates and judgements applied and disclosed in the annual report for the year ended 30 June 2024.

(c) New and revised accounting requirements applicable to the current half-year reporting period

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

2. SEGMENT INFORMATION

Bioxyne Limited (ASX:BXN) is an Australian life sciences company incorporated in 2000 that operates pharmaceutical, health and wellness divisions. In May 2023 the Company acquired Breathe Life Sciences Pty Limited (BLS).

The Bioxyne group operates in several high growth markets, including psychedelics, medicinal cannabis, preventative medicine and novel foods with three core areas of business.

The operating segments are based on the internal reports that are reviewed and used by Management (who are identified as the Chief Operating Decision Makers ('CODM') in assessing performance and in determining the allocation of resources. The CODM are Samuel Watson (CEO) and Jason Hine (COO). The operating segments are as follows:

1. **Pharmaceutical manufacture and wholesale supply (business to business) of novel medicines, cannabis, Psilocybin, and MDMA under BLS**, which is licensed by the Therapeutic Goods Administration (TGA), Office of Drug Control (ODC), and Queensland Health.

2. **Manufacture and distribution (wholesale, online, and retail) of consumer health and novel food products (cannabidiol and functional mushrooms) under the**

company's Dr Watson® brand (regulated by FSA, EFSA) in the UK, Europe, and Japan.

3. Wholesale of patented Probiotics for gastrointestinal health and immunity, primarily to the USA.

Management have determined that it is appropriate to report by sales channel which correspondence with the business divisions outlined above.

In the prior year reporting was by geographical areas as follows:

1. **PCC Wholesale** – contract manufactured in Denmark and sold to NuSkin in USA.

2. **BLS – plant-based wellness products** sold in UK, Europe and Japan.

3. **Functional food products contract** manufactured in New Zealand and direct sales in Asia (now withdrawn from Malaysia and Indonesia).

The following table presents revenue and profit information and certain asset and liability information regarding geographical segments for the periods ended 31 December 2024 and 31 December 2023.

*Discontinued operations are included in the unallocated segment. Refer to Note 5 for the results on discontinued operations.

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors in assessing performance and in determining the allocation of resources.

Segment revenues and results

Segment revenue reported above represents revenue generated from external customers.

Segment profit represents the profit earned by each segment without allocation of central administration costs and directors' salaries, share of profits of associates, gain recognised on disposal of interest in former associate, investment income, gains and losses, finance costs and income tax expense. This is the measure reported to the CODM for the purposes of resource allocation and assessment of segment performance.

On 19 May 2023, Bioxyne Limited acquired Breathe Life Sciences Pty Ltd. The acquisition was treated as a reverse acquisition as per AASB3 Business Combinations.

At the time of the acquisition of BLS, the implied value of goodwill attributable to Bioxyne under reverse acquisition accounting was \$11,568,010. The performance of the original Bioxyne business post-acquisition as outlined in the December 2023 operations report provided an indicator of impairment, and a determination by the Company resulted in a provision for full impairment of goodwill as at 31 December 2023.

Accordingly, during the half-year ended 31 December 2023, \$11,568,010 was recognised as a provision for impairment of goodwill.

**INDEPENDENT AUDITOR'S REVIEW
REPORT
To the Members of Bioxyne Limited**

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Bioxyne Limited which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Bioxyne Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2024 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Bioxyne Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Directors' Responsibility for the Half-Year Financial Report

The directors of the Bioxyne Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors those charged with governance determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2024 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
